Please find below and/or attached an Office communication concerning this application or proceeding.

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SX (6) MONTHS from the mailing date of this communication. If the period for reply is specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.  If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication for reply will, by statute, cause the applicant to become ABANDONED (35 U.S.C. § 133).  Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).  Status  1) Responsive to communication(s) filled on  2a) This action is FINAL. 2b) This action is non-final.  3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.  Disposition of Claims  4) Claim(s) 1-11 is/are pending in the application.  4a) Of the above claim(s) is/are withdrawn from consideration.  5) Claim(s) is/are allowed.  6) Claim(s) is/are objected to.  8) Claim(s) is/are objected to.	ın.

#### DETAILED ACTION

### Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice.

They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

## Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 1-3, 6-8 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Mehnert et al. (US Patent 3,892,513). Mehnert et al. discloses the claimed limitations as follows: providing mold sections (8a, 8b) which have a ram (16) and a counter ram (18) respectively, wherein the ram (16) i.e., cutting means, extends into a recess (13a) so that when the mold sections are closed, the ram (16) pushes into flashing (29) in an axial direction (B) to separate the flashing from the molded container. Regarding claims 2 and 3, see Figures 2-4. Regarding claim 11, ram (18) is considered to be a stopper. Mehnert et al. thereby discloses all of the limitations of claims 1-3, 6-8 and 11.

### Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Application/Control Number: 09/873,295

Art Unit: 1732

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 6. Claims 4 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mehnert et al.).

  (US Patent 3,892,513) in view of Smith et al. (US Patent 6,228,317) or, in the alternative, Palazzolo (US Patent 5,617,768. Mehnert et al. teaches the claimed limitations as follows: providing mold sections (8a, 8b) which have a ram (16) and a counter ram (18) respectively, wherein the ram (16) i.e., cutting means, extends into a recess (13a) so that when the mold sections are closed, the ram (16) pushes into flashing (29) in an axial direction (B) to separate the flashing from the molded container. Regarding claims 4 and 5, Mehnert et al. does not teach that the ram (16) is a blade. Smith et al. and Palazzolo both teach methods of removing excess material from a container by using a blade (Smith et al. element number 27; Palazzolo element number 62). It would have been obvious to a person of ordinary skill in the art at the time of the invention to use the knife blade taught by Smith et al. or, in the alternative, Palazzolo, to modify the method taught by Mehnert et al., which would remove allow the excess material to be severed more quickly and with a smoother appearance than that which would be formed by a ram.

### Allowable Subject Matter

7. Claims 9 and 10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

### Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Suzanne E. McDowell whose telephone number is (703) 305-4018. The examiner can normally be reached on M-F 6:30-4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor,

Richard Crispino can be reached on (703) 308-3853. The fax phone numbers for the organization where
